The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 0124174.

Applicant's attention is drawn to fig 2 of the reference corresponding to fig 2 of the claimed invention. The reference shows an optical disk reading apparatus having an objective lens comprising: a refractive interface 100, 113, 114, a refractive index varying member disposed between the refracting interface controlled by a voltage 101-104, a light source and photo detection means 504 and 505.

With respect to the limitations of claims 2, 3, 5, 6, 8, 9, 11 and 12. The claims are drawn to the varying member structure such as being liquid crystal or electro optical. The reference shows the use of different structures for elements 101-103 meeting the claimed invention.

With respect to the limitation of claims 4 and 10 see element 104.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. 5513158 and 6940798.
